#### ATTORNEY FOR THE TOWN

Attorney Pat Snyder reported on the proposal from Dorina Johnson to construct storage units at the site of the former Pine Grove Inn on Route 11. After appearing before two Planning Board meetings and two Zoning Board of Appeals hearings she was given a variance to construct the storage units on the 100-year floodplain. Most of the site will receive up to 3 feet of fill, which will bring the site up to the 100 year flood elevation. The current regulations in effect in Homer and across the state require that the fill be brought up to 2 feet above the 100 year flood elevation, unless a variance from that requirement is obtained. In this case, the ZBA determined that a variance was warranted.

Councilman Park stated that his property is in the area mapped as 100 year floodplain, not far from the Dorina Johnson property. He would like to investigate the issues concerning floodplain mapping and report back to the board. The other board members indicated that they will look forward to his report.

Attorney Snyder also reported that he had made two court appearances on cases involving zoning violations. In each case the defendant agreed to clean up their yard. One dog case that was taken to court has been resolved and another is scheduled for the middle of the month.

#### COUNTY LEGISLATOR

County Legislator Linda Jones updated the Town Board on activities at the County, including an upcoming budget hearing. She also had information to share on the possibility of getting help on the construction of a new Wall Street Bridge from the military IRT program.

#### VILLAGE TRUSTEE

Village Trustee Patrick Clune reported that the Village Board is planning a town-hall type meeting for December 1<sup>st</sup> to be held by the Building Committee during which they will discuss the options for additional office space that they are considering and allow for public input. Supervisor Forbes suggested that the Town hold a special meeting prior to December 1<sup>st</sup> to hash out ideas on a Town Hall option.

The meeting was adjourned at 8:00 p.m.
